Subject: Arizona Perchlorate

I spoke with Dr. Karen Medville. The information on the location in Phoenix is :

La Sala Rooms B and C
University Center Building
Arizona State University - West
4701 West Thunderbird
Phoenix, AZ

Parking:

Follow "EVENT" signs to parking.

I am told that ASU-West campus is very easy to navigate, with ample parking. Dr. Medville is sending a map.

Dr. Medville has arranged for :35mm Slide, Screen, Overhead Transparency, Microphones, podium, Powerpoint

ASU-West is eager to help the publicity of this event and would like some direction.

Dr. Medville met last week with Karen Rudek of EPA OSW (5306W, 703.308.1682), who was very interested in perchlorate regarding tribal and EJ issues. Dr. Medville asked me about INEHS participation, and I could not give her a clear answer.
